

SIVASANKARAN RAVICHANDRAN

GAME SYSTEMS ENGINEER

+91 96293 06810 | Bengaluru, India
sivasankaran.s1231811@outlook.com

Career Objective

Experienced Game Systems Engineer looking to keep building high-impact 3D/2D interactive systems, pairing hands-on engineering with AI-assisted, vibe-coding workflows to design, iterate, and ship faster without losing component-level craftsmanship.

Professional Summary

- Currently designing 3D/2D interactive application systems at Lens Medical Visualization using C#, JavaScript, Unity, and AI-assisted tooling.
- Uses video and visual reference to reverse-engineer structure quickly and rebuild it into leaner, workflow-specific systems — cutting build time and workload while maintaining a deep, component-level understanding.
- Practiced in vibe coding — directing AI coding agents through natural-language iteration to design, build, and ship full interactive systems end to end.
- Background spans computer-vision-driven interaction design, touchless input systems, and cross-functional game development.
- Backed by earlier hands-on experience in hardware and software troubleshooting.

Key Skills

- Game & 3D/2D Development: Unity 3D, PlayCanvas, Blender, C#
- Programming Languages: C#, JavaScript, Python, C++, PHP
- Computer Vision & AI: Python, OpenCV, AI-Assisted Development Tooling
- Web Technologies: HTML5, CSS (Bootstrap), JavaScript, DBMS, WordPress
- Tools & Software: Blender, Adobe Photoshop, VS Code, PyCharm, Git
- Other: PC/Laptop Hardware & Software Troubleshooting, Basic Photo/Video Editing

Work Experience

Game System Engineer — Lens Medical Visualization, Bengaluru

May 2025 — Present

- Design and build 3D/2D application systems using C#, JavaScript, and AI-assisted tooling for interactive visualization work.
- Use video and visual reference to reverse-engineer structure quickly, then rebuild it into leaner,

workflow-specific systems that cut build time and workload.

Associate Game Developer (Intern) — It's By Technologies

October 2024 — March 2025

- Built out game concepts in Unity from rough layout through full implementation, reviewing and iterating with the team.
- Used AI tooling to speed up bug-fixing and keep code structure clean and well organized.
- Implemented core gameplay animation and tutorial-loop animation for completed game objects.

Freelance Technician — Laptop & System Servicing

Ongoing, freelance basis (1+ year)

- Provided software and hardware troubleshooting for laptops and desktop systems, including OS/driver installs and component replacement (RAM, HDD/SSD, thermal paste).
- Resolved system performance issues and malware removal, and delivered client-facing technical support.

Projects

Selected Professional Work

Titles, names, and links withheld under NDA — descriptions are accurate to what can be shared.

- 2D Match-3 Puzzle — Unity, C# — clears sets of three identical items as the shelf continuously refills.
- Procedural Escape Runner — Unity, C#, Procedural Generation — auto-generated terrain and dynamically changing traps.
- Interactive MCQ Runner — PlayCanvas, JavaScript — endless-loop world customized to deliver multiple-choice questions.
- VR Knowledge Room — Unity, C#, VR — guided activities explaining cause-and-effect concepts.
- 3D Scroll Portfolio Experience — PlayCanvas, JavaScript, WebGL — scroll-driven 3D model viewer.

Academic Projects

- Smart Way to Use OS Features (Diploma Project) — Python & OpenCV vision-based OS interaction controls.
- Website to Identify Pet Basic Necessities (Undergraduate Mini Project) — HTML5, CSS, DBMS.
- Touchless Gaming: Integrating OpenCV Hand Tracking with Unity 3D (Final Year Project) — computer-vision-driven, touch-free character control.

Education

- B.Tech, Information Technology — Mookambigai College of Engineering (Anna University) — 7.1 CGPA — 2020-2024
- Diploma, Computer Engineering — Seshasayee Institute of Technology — 65.82% — 2017-2019
- SSLC (10th Grade) — St. Little Flower Matriculation Hr. Sec. School — 81% — 2016-2017

Personal Details

- Date of Birth: 23-07-2000
- Location: Greater Bengaluru Area, India
- Languages Known: English, Tamil
